Photos

1. Go to Photos and select the photo you want.
2. Tap Edit, tap , then tap Markup . Tap the plus button  to add text, shapes and more.
3. Tap Done, then tap Done again.

Draw with Markup

After you choose a Markup tool, like the pen , highlighter , or pencil , select a colour and start drawing. Tap the same tool again to change the colour opacity, or tap another tool to change the thickness. You can also tap the colour button  to change colour shades.

Move a drawing

After you draw something, you can move it around. Tap the Lasso  tool, trace a circle around the drawing that you want to move, then drag it where you want it.

Erase or undo a drawing

To redo a drawing, tap the eraser button  and rub your finger across the area you want to erase. You can also undo any markup action by using the undo button . If you accidentally undo a markup, you can shake your device and tap Redo.

Get creative with your photos and videos

To get started, open the photo or video you'd like to enhance.

1. Select **Edit & Create** from the top of your screen.
2. Select **Draw**  and then, from the toolbar, select one of three drawing tools.
3. Select your chosen tool a second time to see options for color and size.
4. Go ahead and draw right on your image, and no worries if you mess up—you can always erase markings you don't like with the **Eraser**  tool. Or, clear your whole drawing by selecting **Eraser** at the top of the photo, then **Erase all ink**.

For more creative options, select **Edit & Create**, and then select **Add 3D effects** or **Edit with Paint 3D**.

Share your creations

Once you're happy with your drawing, share it! To share a still of your new image or an animated playback of your drawing, with your creation open, select **Share** .
